PORTFOLIO : www.wherisfab.com/work

Profile

Born in France but lived a nomadic life (+10 countries), an enthusiastic dreamer with a very joyful adaptive mind in love with anything that is different or new. Mindful reliable friend and curious child of this world, always happy to learn and trying to restore faith in humanity.

Skills

Multimedia doctor, app and web design specialist, capable of leadership as well as self-direction, ability to work in collaboration with developers, balancing business goals and client expectations, understanding of the full cycle development, open to critics and aware of new design trends, flexible mind and great sense of humor!

Work experience

APRIL 2013 > TODAY

Senior UX/UI Designer

Auction Mobility (Boston – USA)

One of the founders of this company specialized in software development for auction businesses. Promoted to chief designer in a growing team to maintain a cohesive user experience across a growing range of products and features.

AUGUST 2011 > APRIL 2013

UX/UI Designer

Quickable (Boston – USA)

Moved to USA and created this startup with 2 friends as a designer/founder. Created all designs for the Quickable app on Android, iOS and Web.

JANUARY 2009 > JULY 2010

Interfaces Designer

Frima Studio (Québec – Canada)

Creating UI for video games for millions of users in close collaboration with the artists and programmers. Information organisation and usability testing. Frima Studio was declared the 10th Canada's fastest-growing companies in 2009 and deals with clients such as EA, Activision, Ubisoft or Warner Bros Pictures.

DECEMBER 2007 > JUNE 2008

Digital Graphic Designer

ConnexionAds (St. Martin – F.W.I)

A 6 months contract for a small communication agency. Websites creation, visual identity, logos, posters and brochures. I was in charge in creating flash animated ads diffused on a commercial TV network. Photographic missions for villas rental.

Please ask for earlier job experiences...
