

# Fabien Rousselot

## Senior UX/UI Designer

Natural born designer with a significant experience in the auction industry.

### PROFILE

A strong creative mind capable of brainstorming new concepts while remaining realistic with business goals. Adept at collaborating with cross-functional teams to deliver high-quality designs while always keeping the user needs in sight. A curious eye with a detail-oriented approach to small or large projects. Capable of translating complex ideas into intuitive and visually appealing interfaces while remaining aware of new trends or technical limitations. Proficient in user-centered design principles, prototyping, and usability testing. Strong communication skills and capable of leadership as well as self-direction.

### EXPERIENCE

- **Senior UI/UX Designer (1y)** Mar 2023 / Feb 2024  
Live Auctioneers (Remote) Boulder, CO  
ATG acquired Auction Mobility and Live Auctioneers (LA), eventually merging my role to the LA shipping team, where I worked in collaboration with multiple designers on developing e-commerce like solutions adapted for the auction industry.
- **Senior UI/UX Designer (10y)** Oct 2013 / Mar 2023  
Auction Mobility Boston, MA  
Founder of this company specialized in software development for auction businesses. Promoted to chief designer in a growing team to maintain a cohesive user experience across a growing range of products and features.
- **UI/UX Designer (2y)** Aug 2011 / Oct 2013  
Quickable Boston, MA  
Moved to USA and created a startup with 2 friends as a designer/founder. Created all designs for the Quickable app on Android, iOS and Web.
- **Interfaces Designer (1.5y)** Jan 2009 / Jul 2010  
Frima Studio Québec, Canada  
Creating UI for video games for millions of users while walking the gap between artists and developers. Frima Studio was declared the 10th Canada's fastest-growing companies in 2009.

### EDUCATION
